## Why would you choose a Stretch Tent?

Unlike boxy, traditional white marquees, our stretch tents can be rigged in a variety of ways to personalise the look of the structure to match your ideas for the big day.

So whatever the weather, they can be rigged open sided, or enclosed and comfortable – so you can rest assured that you will have a suitable plan no matter if it's hot and sunny, rainy or chilly.

*our stretch tents can be rigged in a variety of ways to personalise the look of the structure to match your ideas for the big day.*

*So whether you're catering for 30 guests or hosting for up to 450 people we have the right solutions for you.*

## Customizable Design

---

Our tents are made of specially-woven waterproof canopies, which are secured and installed using a straight-forward rigging system made up of ropes and tent poles. They're durable and easy to install at any location.

---

So whether you're catering for 30 guests or hosting for up to 450 people we have the right solutions for you.

What's more, our tents are completely customizable – meaning that you can set your ideal look – but also that you can essentially

create your own venue space, or even adapt and enhance any chosen venue. Be creative and be free to choose the design of your big day, matching the tent to your colour scheme and surroundings.

---

There are so many ways to envisage your ideal setting, it's all up to the imagination! Have the freedom to create something that suits your needs... with an open-sided floating canopy with corners down so that guests

can take in the wonderful views around the landscape of your venue, or even sides down and enclosed for a cosy and unique nightspot to dance the night away.
